

Most importantly I want to stress that this commission must be independent and bipartisan, no administration could credibly investigate such an immense failure on its own watch. We owe it to the flood victims of New Orleans to give them truthful answers as to why this event took place and to assure our citizens that tragedies like this will never happen again.

#### TRIBUTE TO MS. AUDREY BERRY

### HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 14, 2005*

Mr. UDALL of Colorado. Mr. Speaker, I rise today to pay tribute to Ms. Audrey Berry. This week, Ms. Berry will be retiring from the U.S. Department of Energy (DOE) where she served for over 12 years at DOE's Grand Junction Office on Colorado's Western Slope.

Her work at DOE, as well as her long career in public service, demonstrates her dedication and commitment to community concerns and enhancing the quality of life for those in Colorado, the Rocky Mountain region and across the country.

Serving as a Public Affairs Specialist at DOE's Grand Junction Office since January 25, 1993, Ms. Berry consistently has demonstrated a high level of performance. At this position she successfully engaged the communities surrounding DOE's Fernald and Mound Sites in Ohio and the Rocky Flats Site near Denver, Colorado in the establishment of Local Stakeholder Organizations, which provide opportunities for the public to comment on and be involved with the ongoing monitoring of the cleanup at these former nuclear weapons production facilities. She also helped develop a successful transition strategy for public participation at DOE sites that are slated for closure.

Ms. Berry also was instrumental in establishing one of the first DOE Site Specific Advisory Boards (SSAB) in November 1993 for the Monticello uranium mill tailings remediation site in Monticello, Utah. She developed the application for perspective members and interviewed applicants; managed the budget for the duration of the SSAB; provided DOE-Headquarters with required reports and action; organized meetings, was the liaison between the members, DOE, the U.S. Environmental Protection Agency, and the State of Utah; followed up on action items; was responsible in attempting to meet diversity requirements, and resolved issues of concern. Ms. Berry also was instrumental in disbanding the SSAB when the mission was completed. Her involvement with the community of Monticello continued for six years.

Also at the Monticello site, Ms. Berry organized, developed and implemented the plan to transfer DOE property located at the Monticello site to the City of Monticello for recreational use. Utilizing the General Services Administration and National Park Service's "Lands to Park" Program, the property was successfully transferred in June 2000.

Ms. Berry also supported numerous projects assigned to DOE's Grand Junction Office. During her tenure, she developed public participation plans and established outstanding relationships with numerous stakeholder

groups, including congressional, state and local officials, tribal members, special interest groups, citizen's advisory boards, the media, and individual citizens. In order to successfully interface with the multiple contacts she enjoyed, Ms. Berry possessed a broad technical knowledge of all of the assigned projects.

Ms. Berry also organized and conducted numerous workshops and conferences for DOE's Grand Junction Office. Most notably, four Long Term Stewardship Workshops were held, each with 225 to 300 attendees. And, she organized a Stakeholders Conference on Worker Transition and Legacy Benefits for DOE's Office of Legacy Management. This effort was especially important and noteworthy. She recognized, as do many at DOE, that providing health care and benefits for people who worked at DOE sites—sites that involved the handling of hazardous materials—is an important obligation that we as a nation owe to these workers. Her attention to detailed plans has assured successful and well-attended events and helped promote policies to address worker transition issues and public involvement regarding the long-term integrity of cleanup and closure of DOE sites.

Ms. Berry has been the recipient of at least 16 various awards, namely Special Act Awards, Individual Incentive Awards, and Group Awards during her tenure with DOE's Grand Junction Office.

Before joining DOE in 1993, she served as the Western Slope Office Director for Colorado Senator Tim Wirth. At this position, she helped constituents address issues and concerns with federal programs and policies. Prior to working for Senator Wirth, she performed the same service to citizens of Colorado's Western Slope in Representative Ray Kogovsek's office when he represented the 3rd Congressional District in Colorado.

Ms. Berry's work at all of these offices underscores her deep commitment to service for the communities she has served. What's especially impressive has been her personal touch—the way that she interacts with people so that they are included in policy decisions and treated with seriousness and respect. In so doing, she has been effective in getting the job done and involving the public and various stakeholders. Her accomplishments and style are models for the type of quality in public service that we all can seek to emulate.

I am sure that Ms. Berry will remain active in issues of importance to communities along Colorado's Western Slope or wherever life takes her. I wish her much future success.

#### PENN STATE FAYETTE CELEBRATES ITS 40TH ANNIVERSARY

### HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 14, 2005*

Mr. MURTHA. Mr. Speaker, I am pleased to recognize Penn State Fayette, The Eberly Campus as it celebrates its 40th anniversary in 2005–2006. From its humble beginnings to its present status, Penn State Fayette had played a key role in the social, cultural, and economic development of Fayette County.

Penn State first came to scenic Southwestern Pennsylvania following the establishment of the Pennsylvania Cooperative Extension Service and its county agricultural agents in 1907. In 1934, Penn State established an Undergraduate Center in Uniontown that provided the first two years of a college education to area residents "location bound" and/or unable to afford studies at the University Park campus. This Center closed in 1940 as the nation turned its attention to the approaching war. However, Penn State returned to Southwestern Pennsylvania with undergraduate educational programming on June 1, 1965, when it opened the Fayette campus to serve the residents of Fayette, Greene, Somerset, Washington, and Westmoreland Counties. Penn State Fayette began by first offering classes in several buildings in downtown Uniontown. Then, in 1968 the Fayette Campus Advisory Board acquired 27 acres of the Garner Farm, located between Uniontown and Connellsville.

Since that time, the campus has grown to about 100 acres and 10 buildings: the renovated Eberly Building (named for Orville S. Eberly), the University House (once the Garner home), the Williams Building (the redesigned student center named for J. Lewis Williams), a state-of-the-art library, a gymnasium, an engineering building, the Biomedical Technology Building, and several other farm and maintenance buildings.

Penn State Fayette now has five baccalaureate degrees in Administration of Justice; Nursing; Human Development and Family Studies; Letters, Arts, and Sciences; and Business Administration. Penn State Fayette also offers nine associate degrees: Architectural Engineering Technology; Electrical Engineering Technology; Business Administration; Human Development and Family Studies; Letters, Arts, and Sciences; Information, Sciences, and Technology; Nanofabrication Manufacturing Technology, Science, and Nursing.

Responding to urgent statewide needs in 1987, Penn State Fayette established a training and certification program for emergency medical technicians. Today the Continuing Education Department offers credit, non-credit, and management development courses both on campus and off campus at the Uniontown Mall, United Parcel Services in New Stanton, and Somerset Hospital, Uniontown Hospital and Frick Hospital.

The faculty at Penn State Fayette fulfill two roles for the student body with their commitment not only to teaching but also to advising. The faculty have received national and University awards for teaching, research, community outreach, and performance in English, art, philosophy, history, physics, chemistry, administration of justice, and engineering technology. The size of the student population allows for personal interaction between instructors and students, and the dedication of the faculty makes this interaction a tremendous aid to learning.

The many campus activities and events contribute to an atmosphere of unity. Over twenty-five clubs and organizations match the interests of almost every student. The intramural organizations include eight different sports occurring year round. Students have access to a large, well-equipped library, a
